

Dear Central Florida Members:

We would like to invite our members to join us for a Best Management Certification Class. A special thank you to our host, Bryce Gibson for hosting our event.

The BMP Program developed by faculty from the University of Florida for the state’s golf course superintendents officially became law on July 1, 2022. House Bill 967, known as the Golf Course Best Management Practices was introduced on December 17, 2021. It was signed into law by Governor Ron DeSantis on June 20 and became law on July 1, 2022. BMP Certified superintendents are exempt for some restrictive ordinances, such as fertilizer bans and rules regulating water use.

Thank you to all our affiliate and superintendent members for their continued support for this event.
